## IVD MARKET SEGMENTS / IVD MARKET: ~100 BILLION USD IN 2021

IVD market by technologies

IVD market by product category

Total instrumentation market ~ 20 billion USD

### Growth drivers

- Aging world population

- Increasing automation

Source: MarketsandMarkets Research; own estimates

# THE IVD MARKET

## OUTSOURCED VS IN HOUSE INSTRUMENTATION MARKET

- The majority of instrumentation equipment in the IVD market is still developed in-house by diagnostics companies
- Share of outsourced developments has already increased significantly over the last couple of years
- Trend of outsourcing towards specialized players set to continue, due to:
  - Engineering of automation solutions often not core competence of diagnostics companies
  - Shorter development timeframes due to already existent technology pools
  - Guaranteed project budget and firm transfer prices
  - Keeping up with regulatory developments easier for specialized players
  - Structured processes in order to address end customer needs, such as ease of use, user experience, workflow efficiencies, remote access, serviceability and preventive maintenance
